

Sullivan County's plight is disgraceful

To the editor:

I am writing today about the recently disclosed \$2.8 million budget shortfall at the Sullivan County facility in Unity.

I find it disgraceful that our Sullivan County commissioners have again allowed another financial fiasco to occur at this facility. It is my opinion that the New Hampshire Attorney

General would call for an investigation and a full scale audit of the mess. Genesis, if involved in these financial mess, should be taken to court to recover the loss financially. Also the Sullivan County commissioners should be thrown out of office for the incompetent actions of not doing their job and the Sullivan County administrator Mr. Gil Del Rubio should also be fired.

This mess does not need to be thrown on the backs of the Sullivan County taxpayers, and if this is all the present system can provide, then it is my opinion the facility be closed.

It is quiet apparent that the present group of elected and appointed officials are totally incompetent at the expense of the already over-taxed taxpayers of Sullivan County.
